Time's Changes.

"In March 1638, two exchemis, by virtue of their authority, and in consideration of *fifty fathoms of whitebeads*, sold to Mr. Coddington and his associates, the great island of Aquidneck, and the other isles of Narragansett Bay, except two, which had been previously sold. The natives soon after agreed, when receiving *ten coats and twenty hoes*, to remove before the next winter."—(*Morse & Parish's History of New England.*

☞ The lapse of two hundred and twenty years must have wrought a considerable change in the value of real estate on "the great island of Aquidneck" and it would not be surprising if the market value of "white beads," "coats" and "hoes," had undergone some slight reduction in that time. The former, however, must have seemed a highly desirable article, in the eyes of the Sachems aforesaid, in those old days, or they never would have bargained for so large a lot as "fifty fathoms"—equivalent to a string of beads three hundred feet long! and that, as we are informed, was the sort of currency, and the sum total, for which the "great island of Aquidneck" was purchased of the savages, in the year 1638.

"Our fathers saw with hope and faith,
This wild land cleared of ravage foes,
And made it as the Scripture saith,
To bud and blossom as the rose."

The contrast between the wild and uncultivated condition of this island, at the time of Mr. Coddington's bargain for it, and that which it now presents, under the hand of enlightened tillage and enterprise, conjoined with the moral influences of education, religion and free government, would doubtless, if it could be correctly daguerreotyped, afford a most interesting and instructive picture.

It was a position maintained if we mistake not by a man no less distinguished than the late JohnQuincy Adams, that it is the destiny of civilized man to occupy the earth, to the exclusion of the savage and barbarious races; and that false religions and oppressive governments must all ultimately give place to the True and the Right. This position was advocated with no small degree of earnestness and ability; and Mr. A. seemed to think it not only in accordance with the spirit and tendency of the age and the obvious lessons of history, but we believe he regarded it also as quite within the line of Providential ordering.

If we could always depend upon the exhibition of such a just and generous spirit as that presented by William Penn, Roger Williams, and their associates, in their conduct toward the savage or inferior race, we certainly could make no objections to the practical adoption of Mr. Adam's theory.

A Fugitive Slave Rescued in New London.

[From the New London Daily Star.]

About the middle of September a vessel left Wilmington, N. C., for a northen port. Six days out a negro was discovered on board,—a fugitive from servitude. He was properly fed and taken care of, with the idea of returning him to his master as soon as the vessel reached her port of destination. When off Groton Long Point the negro escaped and reached this city yesterday. During the day he stepped into a clothing store, and was in the act of purchasing some cloth when the captain seized him by the collar and took him before Mr. Mather, at the Custom House; who is a U. S. Commissioner. While he was there in charge, several Black Republicans, headed by Aug. Brandagee, Esq., rushed in and rescued him, and he escaped, and is now probably on the express train on the underground railroad, bound for Canada.

Now we submit that it is rather of a high handed operation for a private citizen, a Judge of a local Court, a man whose duty it is to see justice done, officially and by this precept to deliberately walk into the Custom House accompanied by his associates, and tell a fugitive to "go," and then aid in getting him out of the legal train in which it was understood he was being put by the U. S. Commissioner.

The Norwich (Conn.) *Courier* gives the particulars of a fugitive slave case, which occurred at New London on Friday. A coasting vessel arrived from North Carolina with a fugitive on board. The captain apprised the authorities at New London of the fact, who went to the vessel, but the man had taken alarm, jumped overboard and swam ashore. Collector Mather instituted a search, found "Joe," concealed in a clothing store, and captured him; but Dr. Moner interfered, advised the negro to run, and he did. The Collector got out a handbill offering a reward of $50 for his arrest, but, the man escaped, and is supposed to be on his way to Canada.

A QUEER MISTAKE.—An ignorant fellow, who was about to get married, resolved to make himself perfect in the responses of the marriage service; but, by mistake, he committed the office of repentance for those of riper years; so, when the clergyman asked him, in the church, "Will thou have this woman to be thy wedded wife?" the bridegroom answered, in a very solemn tone, "I renounce them all." The astonished minister said, "I think you are a fool!" to which he replied, "All this I steadily believe.'

The Bank of Upper Canada, at Toronto was robbed on Saturday of $4,000. Three persons, suspected of the robbery, were arrested; and, late the same night, the money was returned, and the men discharged.

On Monday a skeleton, supposed to be that of an Indian, was found in Hartford, only 18 inches under ground.

LOCAL NEWS.

SOMETHING TO TALK ABOUT.—One of the places much resorted to by citizens and strangers in Newport during the summer season, is Fort Adams, and much of the travel thither is by land, in carriages.

It is well known that the road leading thither from Newport never acquired any very wide spread fame for its excellence or attractiveness, and people only pass over it for the sole reason that their is no other land route by which to reach the Fort.

There is a way by which a much pleasanter route by land might be secured, the distance shortened, and at the same time furnish to the gentry and others one of the most delightful carriage drives in the world.

It is by laying out and completing an avenue at the southern extremity of the harbor following the shore around, either by cutting into the hillside, or building off into the water; the latter would doubtless be more practicable. There is no doubt but if this were done by an incorporated company, it would yield them a rapid return for their investment, in tolls from those who would be sure to pass over it in preference to the old road. There is rock enough at hand by digging into the side of the hill to macadamize the whole road. New Bedford built an Avenue four miles in length, at a cost of some sixty thousand dollars, defraying the expense out of the City treasury, and the people, even the most "close-fisted" of them, would not be deprived of it for twice the money back.

If Newport is to derive her principal support from the influx of summer visitors—as it seems a settled fact she is, then is it the interest of her citizens to add as far as in them lies to her already unrivalled natural attractions. A few thousand dollars expended by individuals in an Avenue as above, would be almost certain to return to them four fold.

This is a matter that will do to talk about; and though it may not be accomplished at present, the lapse of time will see an avenue as above named, to Fort Adams, from Newport. A generation will rise up, who will not shut the means to add to the natural attractions of our city, those of art.

Oliver Ditson & Co., of Boston, have published the following music:

Heigho—No. 4, of a collection of songs, and ballads, by H. Aug. Pond, entitled

Salut a Marion. Emphatically a love song, with the sweetest of sentiment in the poetry, it is wedded to a lively spirited melody, sufficiently difficult to make its performance interesting, both to singer and hearer. For an occasional performance, in the right company, it is well adapted.

Novelty Waltz—No 6 of a collection of dance music, by the same author as the previous piece, entitled

Alabama. It is in 2 and 6 flats. Its introduction is a slow, wild movement. The waltz proper, possesses a well developed melody, according to the principles of form, partly following, but for the most part broken, and quite difficult. For a player of energy, it will be a pleasing waltz.

Last Rose of Summer—Many admirers of this lovely, plaintive air, are also opposed to opera music. Such may be surprised to know that this air forms a part of Flotow's opera, of Martha. Such is the fact, and it is published in this form, with both English and Italian words. Everybody knows and loves "The Last Rose of Summer."

Henrietta Schottisch—composed by Bettger, is written in C and F, and possesses a pleasant, flowery melody. It is also quite easy and pleasing.

Here in deepest Forest Shadows—A soprano solo, from the opera before referred to. It is in compound tune, written in F, somewhat dreamy, and plaintive in its nature; and will require considerable skill for its performance.

Elements of Velocity—by T. S. Heller. All teachers of the piano forte deeply realize both the importance of practicing thoroughly such studies as these, and also the unwillingness of their pupils so to do. Perhaps it is one of the most unpleasant parts of the teacher's life, to be constantly thwarted in this respect, by those who are the most injured by this opposition. These "Elements" are admirably adapted to preparations for the "trill" and "turn" as also for the scales in "thirds" and "sixes." But alas, the probabilities are that but few will avail themselves of these advantages.

The chief engineer of the Philadelphia fire department has suspended Hope and Franklin engine companies for disorderly conduct, and the Niagara hose company for inciting to riot.

A young man, calling himself Joe Platt, died recently near Detroit, and before death confessed to the murder of a family named Johnson, about a year ago, near Fentonville, for which he received three hundred dollars.

Mr. S. R. Mosely, one of the rescued passengers from the Austria, belongs in Salem, Mass., and was on his return to his native place, having been in Zanzibar for the past few years acting as agent for Benj. West.

A son of Hon. A. G. Talbott, M. C., of Kentucky, and a member of one of the proudest and wealthiest families in the State, has made his *debut* in the circus ring as a clown.

The Crystal Palace.

[From the New York Tribune.]

The Crystal Palace, which was utterly destroyed by fire last evening, was erected in 1853, by an association of our citizens, organized under a charter granted by the Legislature of the preceding year. The impulse to this enterprise was given by the fame and success of the great "Exhibition of the Industry of All Nations," held in Hyde Park, London, from May to November, 1851. The capital of the New York Crystal Palace Association was originally $300,000, but was increased, under an amendment of the charter, to $500,000. All this was expended on the construction of the edifice and over $200,000 more, making the cost of the building $711,600. Improvements and additions were made from time to time, making the first cost of the whole concern about (we think) $760,000. Some part of this—perhaps $100,000—was paid out of the receipts of the Exhibition—the balance is made up of the capital and the bonded debt, which is about $150,000. No stockholder ever received a penny of dividend, and no bondholder, we believe, ever received a farthing of interest. One liberal banking-house advanced to the Company, over and above its subscription to the capital stock, some $67,600, of which it has never yet received a dime. P. T. Barnum was also a creditor to a large amount, but his debt passed into the hands of his creditors about the time of his bankruptcy. Of course there is no insurance.

The Crystal Palace was the most creditable structure ever erected in this City. Its proportions were admirable, its originality of plan unquestionable, its adaptation to its uses unsurpassed. It was an ornament to our City, and contributed largely to its business, its importance and its attractions. Why it should have been so opposed, hated, maligned—still more, why some of the property holders in a neighborhood of which it constituted the principal grace, should have warred upon and sought its destruction—we could never imagine. Suffice it their end is attained.

The Crystal Palace Association went into bankruptcy in the Fall or Winter of 1854—John H White assignee—who has since been endeavoring to dispose of the property, pay the debts, and wind up the concern, acting under the advice of the creditors. Some time last May or June, the City authorities saw fit to take possession of the Palace, dispossess Mr. White's employees, and turn the property over to the American Institute, which had unsuccessfully attempted to lease it from Mr. White. The City's tenant has now burnt up the building—is there no redress for its creators and ther creditors? There is probably work for lawyers involved in this query.

MODE MARRIAGE SERVICE IN THE EPISCOPAL CHURCH.—It is seldom we have witnessed so beautiful a ceremony as the marriage of Miss Eden L——, of Boston, to Mr. Trist, of Phila., son of the well-known negotiator of the Treaty of Guadalupe Hidalgo, which took place on Tuesday morning in the pretty parish Church at New Brighton, S.I. The bridal couple were both mutes—deaf and dumb from infancy. No sweet sound had ever enchanted the eternal silence of their mind! But the intelligence and *esprit* which flashed from the dark eyes of the lovely bride, proved that the intellect was as bright within, as among her more favored sisters.

We all know the exquisite beauty of the marriage service of the Episcopal Church, but new graces and force were lent it by the symbolic rendering of the Rev. Mr. Gallaudet, who with Rev. Pierre Irving performed the ceremony. The Rev. Mr. Irving very slowly and emphatically read the service, which Mr. Gallaudet translated by signs with wonderful fidelity and rapidity, the bride and groom repeating these signs as they were indicated by their clergyman. Several times the sign-language lingered after the word language had ceased, and then the silence which reigned in the Church and the breathless interest which enchained every spectator was almost painful. The solemn vows being symboled before the Throne of Grace, the Lord's Prayer followed; and who can describe the mute eloquence of that mute prayer so devotionally followed by the young couple! When the nuptial benediction was silently pronounced above the lowly bowed heads of the kneeling pair, there was that which spoke louder than words in the graceful sign-language of the officiating minister. A few letters—a word or two—then he upraised towards Heaven—to "God," who had "bound together"—the tight clasped hands—the soul speaking glance upward, away upward—again a few words—the hands placed in blessing upon the heads of the now "man and wife"—a solemn silence—and all was over. No one moved for some moments; we all felt we had caught a glimpse of the spirit land, and we longed for one more glance into that silent spirit world. But the groom was leading his beautiful, graceful bride to the Church door; we have her quite happy smile put away in our memory to gladden some dark hour. Ere we could utter a fervent "God bless you," they had quietly passed away—alone with their mute happiness.—*N. Y. Express.*

SINGULAR ACCIDENT.—*The Hartford Press*, in describing a game of wicket, gives the following remarkable incident:

"Mr. Jabez Alvord had buckled a strap tightly around his right arm above the elbow, to prevent his arm from becoming lamed when throwing in the ball. Soon a large throw became necessary, but as the effort was made, a crack, short and distinct as that of a pistol, was heard across the playground, and the young man's arm fell powerless at his side, the ball describing a curve beyond. On immediate examination of the arm by Doctors Phelps and Steele, who were upon the ground, it was found that the *bone was broken short off, just above the point where the strap was placed.*

Accounts from Japan, to the 10th July state that the Government continued to adopt measures for carrying out the commercial treaties which had been recently concluded with different foreign Powers. A decree of the Emperor has authorized the establishment of large buildings, to serve as commercial exchanges, at Limoda, Nangasaki, and Hakodadi, and had formed a body of brokers to facilitate transactions with the different nations.

Wm. W. Swain, who died in New Bedford a few days since, left a bequest of $57,000 to be applied to the establishment of a free Seminary for females upon the site of his homestead.

☞ The following exquisite lines were found in the Louisville Journal, and are anonymous. The Editor says: "We defy any tasteful lover of poetry to read them, without exclaiming—'how beautiful!'"

"My soul thy secret image keeps,
My midnight dreams are all of thee!
For Nature then in silence sleeps,
And she o'erbrood's o'er land and sea;
Oh, in that still, mysterious hour,
How oft from waking dreams I start,
To find there but a fancy flower,
Thou cherished idol of my heart,
Thou hast each thought and dream of mine—
Have I in turn one thought of thine?

Forever thine fily dreams shall be,
Whate'er may be my fortunes here;
I ask not love—I claim from thee
Only one hour—a gentle tear;
May o'er their visions from above
Play gently round thy happy heart,
And the sweet beams of peace and love
Ne'er from thy heart depart.
Farewell! my dreams are still of thee—
Hast thou one tender thought of me?

My joys like summer birds may fly,
My hopes, like summer blooms depart,
But there's one flower that cannot die,
Thy holy memory in my heart;
No dews that one flower's cup may fill,
No sunlight to its leaves be given,
But it will live and flourish still,
As deathless as a thing of heaven;
My soul greets thine, unasked, unsought,
Hast thou one for me, one gentle thought?

Farewell! farewell! my far off friend!
Between us, broad blue rivers flow,
And forests wave, and plains extend,
And mountains in the sunlight glow;
The wind that breathes upon thy brow
Is not the wind that breathes on mine;
The star-beams shining on thee now
Are not the beams that on me shine;
But memory's spell is with me yet—
Can't thou the holy past forget?

The bitter tears that thou and I
May shed where'er by anguish bowed,
Exalted in the noontide sky,
May meet and mingle in the cloud;
And thus, my much-loved friend, though we
Far, far apart, must live and move,
Our souls when God shall set them free,
Can mingle in the world of love!
This were ecstacy to me—
Say, would it be a joy to thee?"

A correspondent of one of our cotemporaries wishes to know upon what principle railroad companies are liable for loss of life or injury upon their roads, while steamship companies escape the penalty. Felt and Composition Roofs.

THE subscribers would respectfully call the attention of persons building, or about to build, to the above composition, which they have used to the entire satisfaction of many persons in this community who have lately put roofs upon old, as well as new buildings of every description. These roofs have been pronounced by Architects, Builders, and others who have a knowledge of their merits, to be of greater durability, and to be possessed of fire and resisting properties to an extent beyond that of any roof now in use. ☞ The materials of which these roofs are composed are not affected by temperature. ☞ They will not expand or contract with heat and cold, like roofs of iron or tin. ☞ The cost is much less than any other fire proof roofin use. ☞ They are not effected by the jar of machinery. ☞ In case of injury, no roof is so easily and cheaply repaired. ☞ We not only state these facts, but can substantiate them, by referring to those who have patronized us for the last two years, and would request all those who are about to put on new roofs, either to new or old houses, to call upon us before looking elsewhere, when we think they will be satisfied that we can furnish them with the best roof now in use. THE LIVER

INVIGORATOR.

PREPARED BY DR. SANFORD:

Compounded Entirely from Gums,

IS One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR

The Liver is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his duty, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING the BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, WHAT IS better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels, gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞ **Mix Water in the mouth with the Invigorator, and swallow both together.**

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a **Diseased Liver.**

Price one dollar per bottle.

Volume after volume might be given from all parts of the world and from the most intelligent to prove that "it is a perfect Restorative;" but read the circular and you cannot doubt; read also the following:—

☞ THE HAIR.—People have for centuries been afflicted with bald heads, and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before.

It is also without doubt one of the best articles for keeping the hair in good condition making it soft and glossy, removing dandruff and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance, though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should be left untried to obtain such a consideration.—[Woman's Advocate, Philadelphia.

Coshocton, Ohio, Nov. 17, 1856.

O. J. WOOD & CO—Gents: As I have been engaged in selling your Hair Restorative the last season for one of your local agents (R. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours. Being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell.

Yours truly,
S. T. STOCKMAN.

Wayland, Mass., Feb. 5, 1857.

PROF. O. J. WOOD & CO.—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the operation I have used nearly three bottles.

Yours, &c., JAMES FRANCIS

HAMMONTON LANDS.
NEW ENGLAND SETTLEMENT.
RARE OPPORTUNITY.—TO ALL WANTING FARMS—In a healthy place, *twenty-five miles* from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into *farms* of twenty acres and upwards. The soil is of *the best* quality for the production of fruits, grains, &c. The price is $15 to $20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling *every industrious man to buy a farm.* It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a *clay bottom* and *retentive* of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-yards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at the first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket.

The reader will be at once struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal.

The Hammonton Farmer, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cts per annum.

Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land: Leave Vine street wharf, Philadelphia, for Hammonton by rail road at 7 1-2, A. M., and 5 1-2, P. M.; when there inquire for Mr. Byrnes. Boarding conveniences will be found. Letters and applications can be addressed to S. B. COUGHLIN, 202 South FIFTH Street, below Walnut, Philadelphia, Maps and information cheerfully furnished. a26

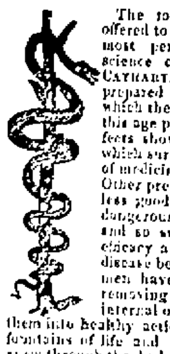
Medicines.



The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less serious symptoms of these distempers, they are the easier cured, Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. The retail price has been reduced to $1,50 per bottle, (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea," are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright.

A CARD TO THE LADIES.
DR. DUPONCO'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at ... Thames street, corner Church..., and at 12 Washington Square, opposite State House. Orders for the trade ... will be supplied at lowest manufacturer's rates. DR. DOW'S
GRAND MEDICAL HOUSE AND OFFICE,
NO. 7. ENDICOTT-ST., BOSTON. NO. 7.
Established for the permanent cure of all Private Diseases and the Suppression of Quackery.

DR. DOW, so well known for the last fifteen years in this city, where he has confined his practice to the treatment of mercurial, syphilitic and other diseases of a private nature, is consulted above, from nine in the morning till seven in the evening. Patients must call during office hours. Office not open on Sundays.

All chronic and difficult cases, such as have existed for years, are completely and permanently cured in the shortest possible time by the Doctor's improved course of treatment.

MEDICAL ADVICE.—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—*Med. and Surg. Jour.*

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhea, Gleet, Strictures, and other local affections of the urinary and seminal organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.
Scrofulous affections, ulcers in the throat or neck, nodes and caries of the bones, eruptions on the skin, and every impurity of the blood thoroughly and completely eradicated. Persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.

TO YOUNG MEN.—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

Beware of all kinds of Exhilerating Cordials, as they are of no use.

To the unhealthy, the mere mention of the name of the far-famed and justly popular physician, Dr. Dow, that he can at all times be found at home that he is surpassed by none in curing all forms of disease however protracted, ill-treated, or mercurily affected, is a consolation to his patients, and an honor to himself.—*Balt. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.—*Republican Argus.*

There are a great many young men whose cases have become very difficult of cure, either from neglect or ill-treatment. We would advise all such to call on Dr. Dow, of Boston, whose practical experience in certain diseases no doubt exceeds that of any other physician in America.—*Journal of Health.*

Dr. Dow consults with physicians, as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.
All diseases peculiar to females, such as suppressions, irregularities, &c., speedily and effectually removed. The efficacy of his remedies for the cure of the above affections, has been well tested in his extensive practice for the last fifteen years in this city, and never was known to fail in effecting a cure where the directions were followed a reasonable time.

HOWARD ASSOCIATION.
PHILADELPHIA.
A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis,** to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhea, Seminal Weakness, Impotence, Gonorrhea, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much despised cause.

An admirable Report on Spermatorrhea, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun,** Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

TO THE LADIES—The celebrated Dr. Dix particularly requests all ladies who may need a medical or surgical adviser, to call at his rooms, No. 21 Endicott street, Boston, which they will find arranged for their especial accommodation.

Dr. Dix having devoted over 48 years to this particular branch of the treatment of diseases peculiar to females, it is now conceeded by all, (both in this country and Europe,) that he excels all the other known practitioners in the safe, speedy and affectional treatment of all female complaints.

Dr. Dix's French Renovating or Female Monthly Pills are to be had genuine only at this office.

These pills are unrivaled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a very short time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or ficticious name. They are entirely useless, having been got up by miserable pretenders, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the old doctor at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country, with directions.

The best of accommodations furnished for the sick, with kind and attentive nurses, if they wish, at a reasonable rate.

This office is strictly private, with special apartments for ladies, and is so arranged that it is impossible for patients to come in contact with each other.

Recollect the number—21 Endicott street.

N. B. All secrets are most strictly confidential.

All letters will be promptly answered. Address Dr. L. Dix, 21 Endicott st., Boston.

CONFIDENTIALLY to the afflicted.—Dr. L. DIX still continues his old establishment, 21 Endicott Street, Boston, where he can be consulted on all private complaints. All persons in any way afflicted may rely on a sure and speedy cure being performed.

Dr. Dix has for a number of years paid particular attention to the study and practice of private diseases, and so perfect has he become acquainted with them, that, without boasting, he will warrant an effectual cure in the shortest possible time, no matter how long standing the case may be.

In offering the result of his long study and practical experience to the afflicted, he is governed by humanity only, for so long have they been deceived by miserable quack nostrums, that it is time that some healthy ... should be ...
